

# TURKEY

Turkey starts in a corner position, one of the best defensive positions in the game. Given time, Turkey can leverage this position to a very strong middle game, working with any of its three neighbors to good profit.

The Black Sea is the biggest initial point of contention, as you do not want Russia there. Either agree that both of you will move your fleets there, or that neither of you will—if you want to be allies with Russia!

Capture Bulgaria in 1901, and build another fleet in Smyrna. Next, look to gain Rumania, or Greece, or Serbia next—depending on whether you want to attack Russia, Italy, or Austria.
